EN 61340-5-1 paragraph 5.2.6 Gloves and finger cots: "Gloves and finger cots made from electrostatic conductive or electrostatic dissipative material are essential if hand tools are used. Gloves and finger cots made from low charging material are permitted only in circumstances when hand tools are not used. Where gloves and finger cots are removed in the EPA, they should not be placed in close proximity to ESDS."

- Handling gloves are worn to protect the operator's hands . In an ESD protected area the gloves should be conductive or static dissipative.
- Knitted fabric with 5mm stripe
- Surface resistance between 10E5 - 10E9 tested per IEC 61340-2-3
- Decay time within 0.3 seconds tested per Test method B.2 per EN 61340-5-1-1998
- Composition: 93% polyester filament yarn with 7% carbon compound filament yarn
- The gloves are washable. Use mild soap solution only. Do not use bleach or other strong cleaners as it destroys conductivity. Check conductivity after each wash.
- Wearing gloves does not negate the need for wrist straps or other effective personnel grounding methods.

Made in Britain

Item	Description
221500	ESD Handling Glove, Plain, Small
221501	ESD Handling Glove, Plain, Medium
221502	ESD Handling Glove, Plain, Large
221503	ESD Handling Glove, Plain, X-Large
221504	ESD Handling Glove, with Coated Finger Tips, Small
221505	ESD Handling Glove, with Coated Finger Tips, Medium
221506	ESD Handling Glove, with Coated Finger Tips, Large
221507	ESD Handling Glove, with Coated Finger Tips, X-Large
221508	ESD Handling Glove, with Coated Palm, Small
221509	ESD Handling Glove, with Coated Palm, Medium
221510	ESD Handling Glove, with Coated Palm, Large
221511	ESD Handling Glove, with Coated Palm, X-Large

Unless otherwise specified tolerance $\pm 10\%$

Glove Laundering

For proper operation, the ESD Gloves must be laundered periodically. Woolite works well. Liquid detergents are better than dry in that there is less caking and frictional wear. Launder glove in cool or warm water, tumble dry with low heat or hang dry. Machine washing works well if using a standard house machine on gentle cycle. It is not recommended to launder these gloves in heavy industrial laundry machines as it will lead to premature wear. Gloves should be tumbled dry using low heat. DO NOT BLEACH.

Specifications and procedures subject to change without notice.
